

## DISCOVER THE ADVANTAGES OF ABC SEAMLESS GUTTER SYSTEMS

America's first name in seamless steel siding, ABC Seamless, delivers the same reputation for beauty, quality and lasting value to the details of your home. ABC Seamless gutter systems are formed from a heavy-weight steel core and finished with the same multilayer, weather-defying coatings as the home siding that has made us famous. Here's our promise: Our gutters will not crack, peel or blister.

## OUR CUSTOMERS SAY

ABC Seamless gutter systems are the workhorses of protecting your home from the weather. Not only do they defend your roof and foundation from the threat of water damage. These gutters look good while they're hard at work! Designer colors duplicate or complement other ABC Seamless products, from siding to fascia and soffits. If you ever need to replace or add to your system, you can count us. In over 30 years we have **never** discontinued a color.

**COATINGS** — Layers of exhaustively tested coatings cover the heavy-gauge core protection from peeling, cracking and blistering.

ARCHITECTURALLY DESIGNED

30+

### COLORS

ABC Seamless gutter systems are available in more than 30 colors to match or complement your siding, fascia and soffit. We have never discontinued the availability of any color.

33%

### MORE DRAINAGE

That's how much more water our gutters carry, compared with ordinary alternatives. **One-third more!** Quicker, more reliable drainage of rain and meltwater protects your roof, your foundation and your basement.

28

### GAUGE STEEL

Our heavier steel makes ABC Seamless gutter systems stronger and more durable. Our gutters stand up to the worst weather. When mother nature threatens, you'll have peace of mind knowing you have a dependable gutter system.

UP TO 8

### HIDDEN STEEL GUTTER HANGERS

You expect great looks from ABC Seamless siding, and that goes for our gutters, too. We install your gutters with larger, stronger steel hangers instead of the traditional smaller, weaker aluminum hangers ... for greater support that stands the test of time. Also, very adaptable for a gutter cover.

STRONG AS STEEL

28 GAUGE SOLID STEEL CORE

- AKZO-NOBEL REL-SHIELD 4 PVC COATING
- AKZO-NOBEL 6000 UNIVERSAL CORROSION RESISTANT PRIMER
- BONDERITE 1402W CONVERSION COAT
- G-90 GALVANIZED COATING
- 28 GAUGE SOLID STEEL CORE
- G-90 GALVANIZED COATING
- BONDERITE 1402W CONVERSION COAT
- CORROSION RESISTANT BACKER COAT

4x3"

**DOWNSPOUT CAPABILITY IS DOUBLE**  
Our larger downspouts carry twice as much rain or meltwater off your roof and away from your foundation. Compared to everyday products, ABC Seamless gutter systems drain faster. That reduces shingle damage and roof rot, along with seepage around your vulnerable foundation.

**DARE TO COMPARE HEAVY DUTY STEEL VS. ALUMINUM**

Our downspouts live up to your expectations. Their heavy-duty steel construction resists crushing and damage. They fold at the elbow, too, to keep them out of the way when mowing.
