DARE TO COMPARE

ABC SEAMLESS

DURABLE STEEL

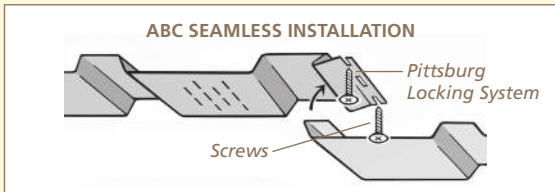

Our soffit and fascia are tough and durable...made from the same strong steel as our siding and finished with the same multi-layer coatings.

ONE SUPPLIER

No worries! From siding and gutters to soffit and fascia, ABC Seamless offers you the same consistent quality in a *comprehensive one-source solution*.

COLOR CHOICES

Our soffit and fascia match the same colors as our siding and gutters. *We have never discontinued a color*, so you have peace of mind.

INSTALLED WITH SCREWS

Our exclusive Pittsburg WindLock System provides the ultimate resistance to wind damage. Panels are locked together and securely *fastened with screws*.

LIFETIME WARRANTY

ABC Seamless soffit and fascia are covered by the same warranty as our seamless steel siding.

ORDINARY SOFFIT & FASCIA

LIGHTWEIGHT ALUMINUM OR FLIMSY VINYL

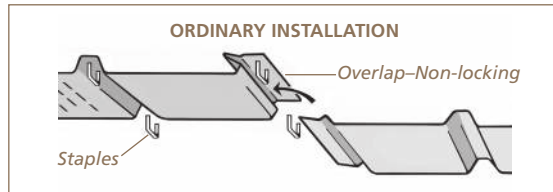

Ordinary soffit and fascia are manufactured from lightweight aluminum or flimsy vinyl. They're prone to bending and warping, which may lead to costly repairs.

MULTIPLE SUPPLIERS

Installers often buy products from multiple suppliers to get the cheapest price. That may cost you less but may void warranties. Watch out...keep your fingers crossed!

LIMITED COLORS

Lower-quality products may mean a hit-or-miss match with the rest of your exterior. The color you select today may be discontinued or changed tomorrow.

INSTALLED WITH STAPLES

The edges of aluminum and vinyl soffit panels are simply overlapped and stapled. Installation is faster and cheaper but also less secure.

LIMITED WARRANTY...OR NONE AT ALL

Will the installer or the manufacturer stand behind its products? Maybe...maybe not.

"I LOVE HAVING A WORRY-FREE HOME EXTERIOR. NO MORE WASTING *precious time* AND MONEY ON UPKEEP! THAT MEANS MORE TIME FOR OUR FAMILY."
